

A Holistic Strategy for Accelerating Digital Government Transformation in Sri Lanka

Thushara Suraweera

2023-06-08

“Highlighting the importance of adhering to a holistic strategy for accelerating digital government transformation in Sri Lanka – emphasizing the importance of leadership from the top for better coordination across government departments and partnership with other stakeholders including the private sector, which also calls for effective and secure data sharing and integration to dismantle data silos and a unified/centralized platform for public service delivery and transforming the government processes”

Accelerating Digital Government Transformation...

Highlighting the importance of **adhering to a holistic strategy** for accelerating digital government transformation in Sri Lanka – emphasizing the importance of **leadership from the top** for better **coordination across government departments and partnership with other stakeholders** including the private sector, which also calls for **effective and secure data sharing and integration** to **dismantle data silos** and a **unified/centralized platform for public service delivery** and transforming the government processes;
