# Introduction – Progress on the domestication process of Agenda 2030 and 2063 in Botswana

- Botswana has made significant strides in the domestication of the Agenda 2030 and Africa Agenda 2063.
- The convergence of the two agendas is recognized and hence all the processes of the 2030 Agenda and its underlying Sustainable Development Goals (SDGs) entail Agenda 2063.
- A National SDGs Roadmap has been developed to guide implementation of the SDGs.
- The Roadmap has guided the development of strategic initiatives towards implementation of the SDGs
- The constituted coordinating structures are; Parliamentary Special Select Committee on SDGs, Joint National Steering Committee (JSC) on SDGs, Technical Task Force and SDG Focal Points within Line Ministries.

20  
YEARS

# Introduction continued....

- The 2022 Voluntary National Review (VNR) Report was crafted through an inclusive undertaking. The VNR process entailed stakeholder consultations across the country.
- Work continues to integrate the two agendas into the countries National Agenda through the assistance of Development Partners.
- Despite the above progress, more still needs to be done to integrate and capacitate stakeholders on the two agendas and ensure their localization.
- Of note is the fact that only about 35% of indicators have data – and the rest are difficult to report on due to data challenges (no baselines and targets)

# Has Botswana adopted a Whole of Government Approach in managing the Process?

- Inclusive participation and effective stakeholder engagement in implementing the 2030 Agenda and Agenda 2063 is being followed.
- Botswana follows a thematic working group approach in planning and implementation. This approach brings all players – Government, Private Sector, Development Partners, Civil society etc to ensure that no one is left behind.
- The **JSC** on SDGs also has representations from Government, Private sector, Civil Society Organizations, Development Partners, Youth groups, Media, Trade unions etc in the spirit of leaving no one behind.

<b>SDG GOAL 3</b> Target 3.2	Ensure healthy lives and promote well-being for all at all ages	<ul style="list-style-type: none"> <li><b>3.2.1</b> Under 5 mortality rate</li> </ul>
<b>Outcome – KPIs</b> (NDP 11/TWG- Social Upliftment)	Decreased under five (5) mortality	<ul style="list-style-type: none"> <li>Percentage of under 5 children who are underweight (malnourished) (<b>MOHW</b>) related to <a href="#">SDG 2</a></li> <li>% of Vulnerable Groups Receiving Food Rations (<b>MLGR&amp;D</b>) related to <a href="#">SDG 1</a></li> <li>% of the Population with Access to Improved Sanitation (<b>MLWS</b>) related to <a href="#">SDG 6</a></li> <li>% Compliance of Wastewater discharge facilities to BOS 93:2012 (<b>MLWS</b>)</li> <li>% Compliance to Drinking Water Standard ( BOS 32) (<b>MLWS</b>) related to <a href="#">SDG 6</a></li> <li>Number of children accessing child protection services (<b>MLGRD</b>)</li> <li>% of households with habitable basic shelter (<b>MIH</b>) related to <a href="#">SDG 11</a></li> <li>Proportion of population below minimum level of dietary energy consumption (<b>MOA</b>) related to <a href="#">SDG 2</a></li> </ul>
<b>Ministry of Health and Wellness</b>	<b>Strengthen Prevention Interventions</b>	<ul style="list-style-type: none"> <li>Immunization coverage</li> <li>Diarrhea case fatality</li> <li>Vitamin A (VA) supplementation coverage</li> <li>Child Welfare Clinics Attendance Rate</li> </ul>

# Botswana's SDGs Road Map

## Ownership, Leadership & Coordination

- Everybody needs to be on board
- Localization and implementation of SDGs and Agenda 2063
- Clarification of roles and responsibilities across all stakeholders
- Political Leaders should champion the process and ensure accountability for results

## Integration: Planning & Implementation

- Keep focus on basics of public sector management to strengthen planning, implementation and performance
- Integration of SDGs and Agenda 2063 in the existing public sector management structures has a much greater impact on implementation

## Advocacy, Sensitization and Awareness

- Raising public awareness on the 2030 Agenda and SDGs is critical.
- Mobilising, empowering and engaging people through participatory process to give them a voice in the implementation of the SDGs.

## Data, Monitoring Reporting, Evaluation & Research

- Availability of timely and reliable disaggregated data is critical for effective monitoring and evaluation
- Indicators should have data available with the required frequency
- Research is vital to produce knowledge products that will inform evidence-based policy making and implementation of SDGs

## Strengthening the SDGs Institutional Mechanisms

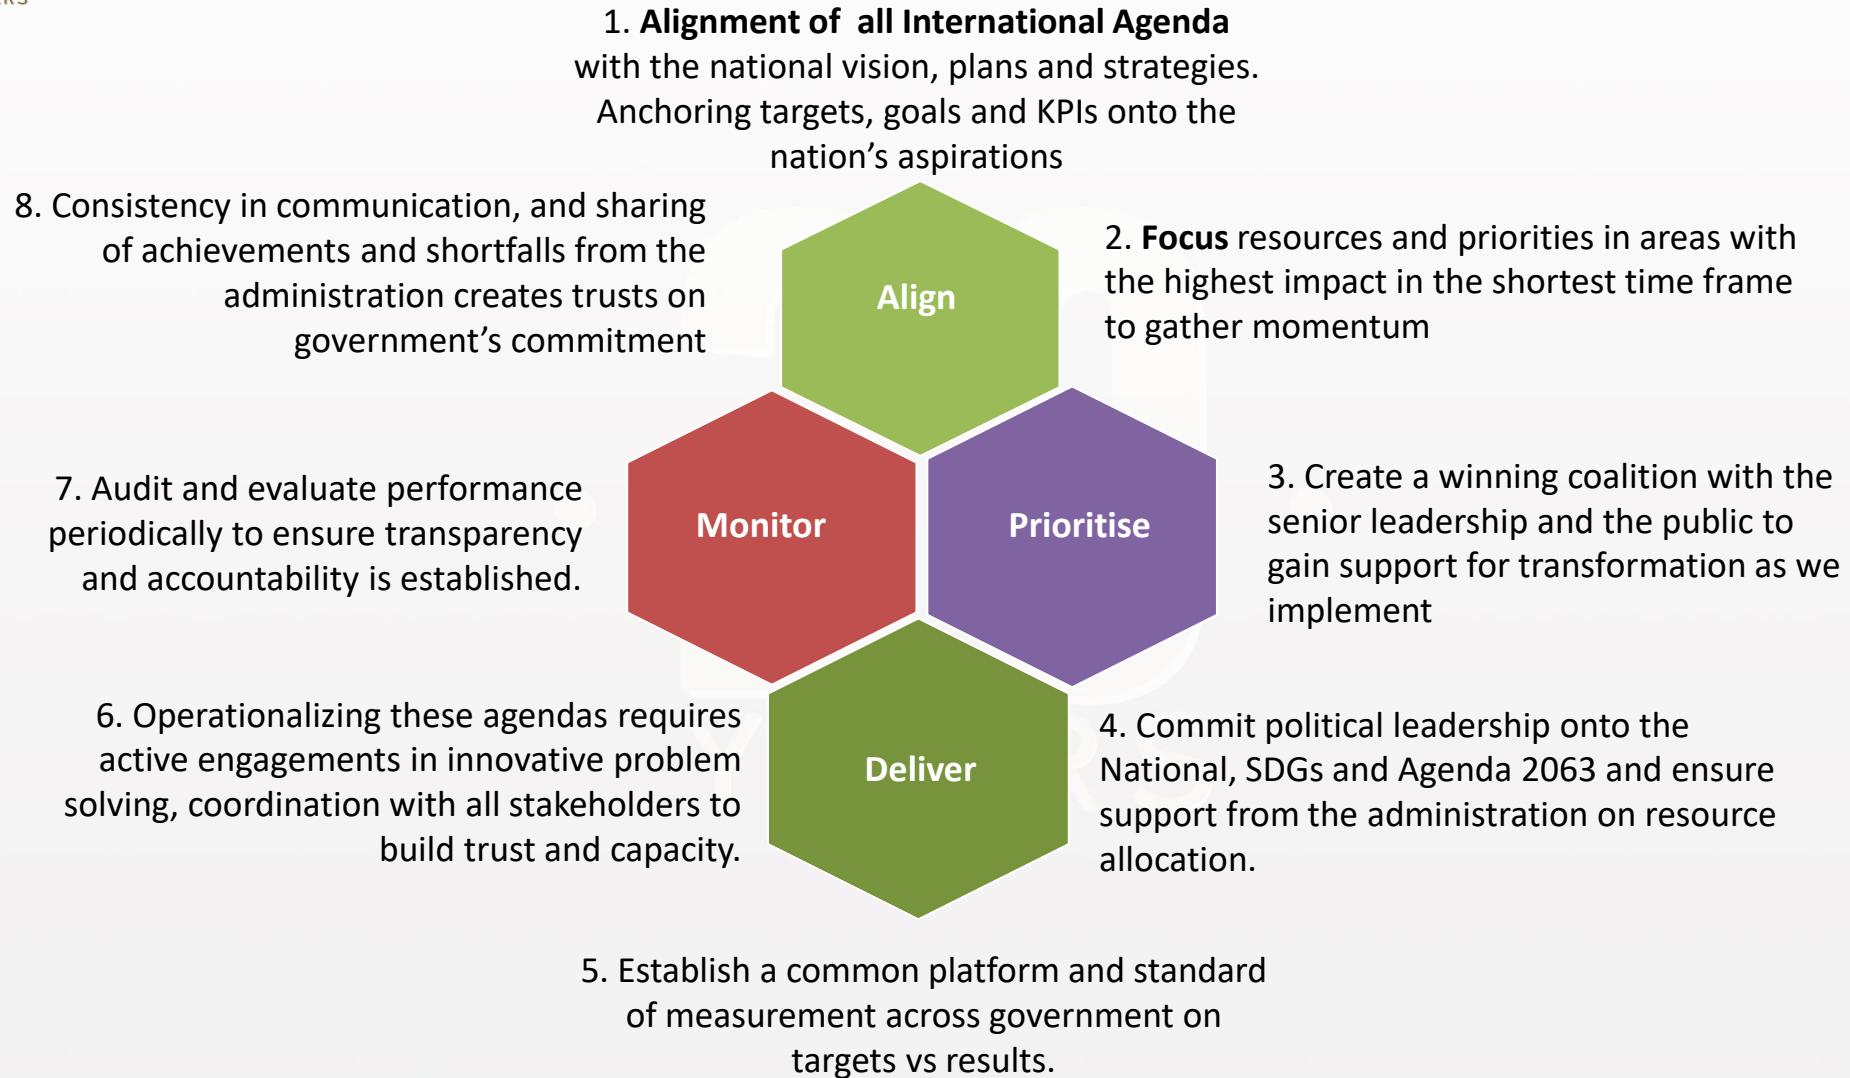

- Sustained capacity building of all players and institutions spearheading the SDG Agenda is vital
- Build capacity for gathering and analyzing data
- Build capacity for conducting and using research & evaluations
- Build capacity on indicator development, definition and target setting
