

Training Toolkit on Effective National to Local Public Governance for SDG Implementation

Action Plan for Accelerating Change

Module 5

I. Identification And Roadblocks And Opportunities Exercise

1. The current stage of coordination

- A. Could you name and briefly describe the main coordination mechanisms you are aware of at the policy level for the design and implementation of SDGs?
- B. Could you name and briefly describe the main vertical coordination mechanisms you are aware of for the design and implementation of SDGs (top-down and bottom-up processes)?
- C. Could you name and briefly describe the main coordination mechanisms you are aware of at the operational level for implementation of SDGs?

2. On the way to better coordination

- A. According to you, is it relevant to call for more coordination among the different stakeholders working in the field of SDGs?
- B. For your organization, what are the three expected benefits of more coordination?
- C. What can be done to improve coordination?

I. Identification And Roadblocks And Opportunities Exercise

Category	Design		Implementation		Recommendations
	Main features	Gaps	Main features	Gaps	
Horizontal Coordination at the policy level					
Vertical coordination					
Coordination at the operational level					

II. Change Project Completion

Completion

Presentation of Change Project

Discussion on Change Projects Presentations

III. Lessons and impressions

What did I like

What did I learn

What will I take home

What will I do first

IV. Participant feedback questionnaire

Please fill in the participant feedback questionnaire and return to the organizing team

Thank you
