# Visioning is More Useful than Vision Documents

## 2007: Vision documents

Builds ownership, alignment and trust  
Creates a guiding coalition towards one goal

Long 'think', theoretical 'plan', zero 'do'

## 2008: Quick Wins

Short 'think and plan',  
almost simultaneous 'do',  
continuous 'fine tuning' based on feedback

2009:  
Aligning with  
Political Vision is  
Effective

“My government has already embarked on a Digital Bangladesh by implementing its Vision 2021 election manifesto. Our goal is to transform Bangladesh into ‘Sonar Bangla’ or ‘Golden Bengal’ as envisioned by Bangabandhu.”
