5:45 pm – 8:30 pm (Pakistan Standard Time)

**Stefania Senese**, Programme Management Officer, PMCDU,  
Division for Public Institutions and Digital Government, UN DESA

# Objectives of the Training

---

**Purpose:** The purpose of this training of trainers' is to enable your institution to deliver the training on changing mindset in public institutions to Realize the 2030 Agenda for Sustainable Development in Pakistan.

---

**Training Approach:** Learning-by-doing and Problem-Solving Approach. Capacity building activities revolves around a current challenge.

---

**Sustainable:** Training should be comprehensive, and impactful as possible. It would be important to create a network of trainers so to ensure that the impacts of the training session are maintained.

# Training Methodology

- Learning will be achieved through presentations by experts as well as through group work activities.
- The theoretical modules seek to provide participants with the basis needed for understanding the importance of changing in mindsets and behaviours in public institutions to realize the 2030 Agenda.
- The practical part contains a case study on the Indus River Basin and a number of activities which demonstrate how to apply the various concepts, methods and tools presented in the previous sessions.

# Structure of the Capacity Development Training Workshop

- Each session contains PowerPoint presentations to introduce and explain each theme, as well as a detailed notes and list of readings to assist those interested in acquiring further information on the subject

# Training Justification

The training will strengthen institutions' ability to choose appropriate methods and tools to assess, plan, evaluate and decide on the best policies, measures and strategies to trigger a change in mindsets.

Increase cooperation among training management institutes and exchange of expertise to increase participation and knowledge in promoting a change in mindset in public institutions to realize the 2030 Agenda.

THANK YOU FOR YOUR  
ATTENTION
